

## Harmony Of The Four Gospels

The four Gospels were written by four different men inspired of God, at four different times and places. In writing about the different events in the life of Christ here on the earth, only one may cover that event, or two, or three, or all four writers. Of those covering a specific event, some may give some details that the others do not give, but the details all agree and there are no contradictions in what any of the four writers say because they were all inspired of God who guided them in their writing.
